

Illawarra Bird Observers Club Inc  
MEMBERS' MONTHLY SIGHTINGS

**July 2008**

**Compiled By Martin Cocker**

Obviously a quiet time of the year for us all!! Many thanks to those brave souls who have been out and about and below are all the records received. Several of you have sent me past records of Logrunner sightings and I will use these to base our proposed survey. I am hoping that we can have some additional field trips to target this species. Good Birding!!

Species	No.	Date	Location	Habitat	Observer
Brush-turkey	1	10-Jul-08	Wollongong Botanic Gardens	Park	Penny Potter
